How many benefits are payable per plan?

Lifetime Benefit Maximum - This is the maximum amount payable under the plan. The critical illness benefit amount for each covered disease or condition is 100%, unless otherwise stated. The lifetime benefit maximum allows the plan to pay multiple 100% benefits, along with partial benefits, for multiple diagnoses when included in the plan during the Covered Person's* lifetime. Your plan **does not limit** the lifetime benefit maximum amount payable.

****Multiple Payments** – For a Covered Person to be eligible for more than one benefit payment, the diagnosis is either considered an Additional Critical Illness Benefit (different) or a Recurrence Benefit (same).

- **Additional Critical Illness Benefit:** pays a benefit if the Covered Person experiences a diagnosis which is a **different** critical illness from which a benefit was already paid while coverage is inforce.
- **Recurrence Benefit:** pays a benefit if the Covered Person experiences a subsequent diagnosis which is the **same** critical illness from which a benefit was already paid, while coverage is inforce. For recurrence to be payable, the following separation periods **must be met** to pay that same critical illness benefit:
 - Diagnosis of Invasive Cancer, Non-Invasive Cancer or Skin Cancer **must have** a separation period of 90 Days.
 - Diagnosis of all other Critical Illnesses **must have** a separation period of 30 Days.

The Recurrence Benefit may not be available for all Critical Illnesses, which are only payable once per Covered Person. Please see the Description of Benefits section in your Certificate to see the conditions that are not available for Recurrence.
